Robinson's Big Show .- This immense concern has created one of the most unbounded sensations wherever it shows that has occurred in the circus The Attack on Insurrectionists Deand show business for years.

People get up excursions when it stands at country places, and come from wide and near to see the "show." "Big Richmond" was perfectly carried away with it, and the press of that city teem with laudations of its truly great merit. As an evidence of that fact, hear the Whig of that city:

"The success of this grand exhibition has been, we believe, without precedent

in this city. It has not been unusual for circusses showing here to draw one or two large assemblages, but for the pavillion to be crowded to overflowing at four successive perfermances is some-thing remarkable. This was thing remarkable. This was Mr. Robinson's experience in Richmond this week, and may be ac-

cepted as proof positive of two facts:
1st. That the show itself is worthy of patronage. 2d. That a popular scale of prices will bring in the dollars faster and thicker than a high tariff. These two considerations had their influence not only upon the people of Richmond, but on the population of the country for miles around the city, who flocked hither in crowds, by the railway trains afoot, on horseback and in vehicles of every description. Such was the anxiety of some of the late visitors to reach the tents in good time that numbers were actually seen running at full speed in that direction. Others, to make sure of a seat, started an hour or two before the performance commenced, and were surprised to find hundreds of seats already occupied. Was the like of this ever seen before?

The arenic performances were superior. Mr. Stickney is one of the best equesterians now living, and his feat of turning a double somersault over fourteen horses is the very some of gymuas-tic daring and skill. The single somersault over twenty horses by Mr. Kelly is another extraordinaray feat.

The menagerie is the best we have seen for many years. The living rhi-noceros and the sea hons are among the prominent curiosities in this depart-

So immense was the crowd, that it was feared the living wave would bear away the tent; and young Jack ordered out the eiephant to keep back the pressure.

MEETING OF THE AGRICULTURAL Society.-A very large and intelligent number of our citizens and visitors to deliberations of the State Agricultural Society last evening.

Dr. Hunter, from Caston, entertained the Society with an essay on clover and one on native grasses, which induced a general discussion, in which Messrs. Heck, Russ, Clingman, Merrimon, Dr. P. E. Hines, Dancey, Thigpen, Kerr, Col. S. S. Royster and Kerr, of Alamance, participated.

The consideration of the resolution looking to the removal of the Fair, will come up for consideration to-night, at which time, there will be an election of the officers for the ensuing year. It will Fair at Raleigh to be present.

TUCKER HALL .- The "Hidden Hand," one of the best plays of the American stage, was most capitably rendered by the Watkins troupe, at Tucker Hall last evening. We regret that lack of space prevent our noticing in detail the various characters, all of whom played their parts to perfection.

The hall was crowded to its utmost capacity, not even standing room could be obtained in the aisles after the rising of the curtain. The large audience manifested a high appreciation of the play by continued rounds of applause, well attests the great popularity of Rose expected that a larger crowd will be on and Harry Watkins, who we claim as the grounds to-day than ever before the great Southern favorites. The play selected for to night is "Katy Darling; or, Put Yoursell in her Place," with an excellent afterpiece, in which the inimitable Harry Watkins will assume the leading character.

POSTPONED .- The Concert of the Pomeroy Snedair troupe has been postponed from last evening to this (Thursday) evening for the reason that they to harness, \$175 to first horse, \$75 to were fatigued and worn out with their long trip direct from Boston to this city. THE LATE HON. R. R. HEATH.

The presence in Raleigh of Robert Heath, Esq., of Memphis, Tenn., the only son of the late Judge Robert R. Heath, of that city, calls to mind vividly the memory of his father, who, though not born or educated in the State, had spent his entire manhood here from early youth, till 1866, when he removed to Memphis.

Judge Heath died a resident of Tennessee, but North Carolina had not within her limits a man more devoted in heart and soul to her welfare and

During his residence in Memphis, a devoted friend and classmate, Albert Smith, M. D., of New Hampshire, a graduate with Judge Heath, of Dartmouth College, proposed to his Alma Mater the propriety and justice of bestowing upon Judge Heath the honorary degree of LL. D.

To effect this, the Trustees always require the highest proofs of merit and character at the time of its bestowal. This effort on the part of Dr. Smith, came to the knowledge of the bar and bench of North Carolina, who, with one spirit and act, and with the most devoted friendship tendered their united testimonials of his worth, and the distinction was conferred by the college in the year 1870.

His correspondence with his friends in North Carolina was ever warm with expressions of the deepest love and atfection for the State.

In one of his numerous letters to a friend with whom he kept up a correspondence, he wrote in February. 1871: "I hardly know what response to make to my numerous and kind friends of the Old North State. Say to such of the bench and bar that I am deeply gratified for their kind appreciation of my judicial and personal character, so much so, that I cannot find words wherewith to express myself. To each, every and all, tender the homage of my personal recognition of their kind ness and partiality."

In the same letter, speaking of this State he says: "Poor, impoverished North Carolina! the State that has my fondest affections, and my most pleas ant associations and memory. My heart bleeds for her. Is she never to have peace ?"

Complaining of the great labor he performed, and its little reward, be says: "It had been better for me had I remained in the old State," and after describing his sufferings under a late affliction, he addresses his correspondent as if he were talking to him.

He says, "M \* \* \*, I feel at times rs if my earthly mission was over, and I indulged the other night in a fancy sketch thus, you will understand it. Robert R. Heath, Lawyer, Solicitor and Judge, horn on the banks of the General Walker.

Merrimac-Reared to honor and usefulness on the banks of the Albermarle-Died on the Mississippi slope—Altas — Requiescat in pace.' I hope to rest in the land of my affection when I go hence. All of the egotism herein is intended

In a subsequent letter of the same

"I wrote you a long letter some days since, to which I have little to add save that my fears for North Carolina and its future were derived from Wash ington. One of my informants, speaking of Tennessee and North Carolina says, when the Government moves again to put down force and violence, it will move with power.' I am in bad health and grieve daily and nightly over the prospects of my Old State."

In a conversation with a gentle man in Memphis, in 1868, now a citizen of this State, he exclaimed with much fervor and emphasis-"I had rather live in the Albemarle region of North Carolina than any spot under Heaven !

The memory of Judge Heath will ong be revered in this State by the members of the bar and other devoted friends who honored him for his learning, his integrity and his generous and vote. Had our Democratic friends in noble qualities.

NORTH CAROLINA MAY DE-DECIDE.

The October elections are over. Since the first inst., six States have voted, namely: Georgia, Connecticut, Indiana, Pennsylvania, Ohio and Ne-

The first three voted against the Rad icals; the last three for them. Our friends throughout the Unio

are not discouraged by these results. It is true we had strong hopes of carrying Ohio and Pennsylvania; but f we had done so, there would have been no contest, and Greeley would have walked over the Presidential track with out a real competitor. If we had elected our State ticket in Ohio and Pennsyl vania, Grant's friends acknowledge there

would have been no chance for their

candidate. But the fact that we failed

to carry them, especially as we have elected Hendricks Governor of Indiana, does not argue that we have not a good chance to elect Greeley in November. If those Southern States where Mr Greeley's chances are the best will stand squarely up and give their electoral votes to him, with the aid of New York, In-

jority of the votes in the electoral colthe United States.

Then if the Southern States will do their whole duty, they can defeat President Grant.

The vote of North Carolina may decide the Presidential contest.

How important it is, then, for every opponent of Radicalism in the State to come out on the fifth day of November, and vote for the nominees of the Liberal Republican and Democratic parties!

If our people are opposed to the Grant despotism, if they are opposed to the official corruption that has characterized every department of the Government, if they are opposed to military law, and carpet-bag misrule and swindling, if they are opposed to the flagrant violations of the fundamental law of the land, by the State and National Administrations, if they are opposed to lawlessness, bribery, fraud and man of the National Executive Compolitical debauchery, they should go to mittee. polls on the fifth day of November, and cast their suffrages against the re election of Ulysses S. Grant.

North Carolina may decide. It may be in our power to stay the ber. waves of corruption that are sweeping over the country. It may be in our power to give the deciding vote against four oppression. It may be in our power to tory yet over Radicalism. rescue the land from the grasp of military dictation, and thus overthrow imperialism in America.

A solemn duty rests upon each voter in this State, which he cannot evade. That duty is to protest at the ballotbox against the crimes of Radicalism -to vote for honest government and

ONLY FOURTEEN HUNDRED.

The failure of six hundred Indians to cast their votes for Judge Merrimon in August last, was because of a mistake by the judges of election-who were of opinion that they were not entitled to the right of suffrage.

This reduces Gov. Caldwell's reputed majority to fourteen hundred.

Consequently a gain of two votes in each township, in November, by the Conservatives and Liberals, will overcome the Radical majority, and give the State to Greeley.

How important it is then that every How important it is then that every slow recovery, and her husband, anxious conservative vote be polled on the fifth to amuse he hours of convalescence, of November!

It will be an easy matter for us to redeem North Carolina now. Fellow-citizens, let us do it !

DEMOCRATIC COMMITTEE TO THE PEOPLE OF THE UNITED STATES.

The following Address to the people of the United States has been issued by the National Democratic Committee :

The October elections are over. They enable us to form a tolerably ac- ecutive Committee. At least, we learn curate idea of the true political situation of the country.

In Georgia we have to recount a victory for the Liberal ticket so unexampled as to take her out of the list of doubt ful States, and practically to pronounce in advance the decision of at least 125 votes in the Electoral College. To this number it is only necessary to add sixty votes to elect Greeley and Brown.

In Pennsylvania the distinguished Chairman of the Liberal Committee bas eloquently characterized the methods by which the result of the election there was accomplished. We commend his statement to the thoughtful attention of the country.

In Ohio, despite most unprecedented gains for the Liberal Democratic ticket the Grant managers have carried the election by a reduced majority, having brought to the polls their entire reserved certain localities of that great commonwealth shown the same carnestness and activity, and enabled us like our enemies to record our entire strength they would now be exulting over a brilliant victory In Indiana the Democratic and Liberal forces have achieved a most important success over Pennsylvania tactics most unscrupulously employed by the Administration and its allies, showing thus that a free people when aroused know their rights and dare maintain them .-Indiana has fairly demonstrated that she can neither be "bought nor bullied." The moral of these results is that victory is still in plain view for our national ticket, and that energy and courage will assure it. The victory must be won. If we mean to preserve free institutions on this continent we must assure it.

The event in Pennsylvania on Tuesday last, when considered in its causes, is the most appaling political catastrophe that has ever taken place in this coun try. Should the system through which this catastrophe was brought about be condoned by the people and foisted on the other States it seals the doom of freedom in America. A sad contrast it is surely that the city in which our republic was born amid the anthems of a Delaware,—the Northern States which the knell of its liberties. It is for the are almost sure to vote for the Liberal free, unbought people of all the States candidates, Greeley will receive a ma- to calmly review the fearful crime against suffrage in Pennsylvania, and lege, and will be the next President of to decide whether it shall be repeated

within their own borders. For the first time the system of free government and the sanctity of the ballot are really on trial in the United States. From this hour forward the preservation of the franchise in its in-

tegrity dwarfs all other issues. Let our friends in each of the States catch inspiration from the heroic conduct of our fellow citizens in Georgia and in Indiana; and from now till November let their struggle be manful and unceasing for liberty and an untainted ballot box, for reform and an honest administration of the Government.

DISRAELI AND LOTHAIR, - Apropos of the expected new novel from the pen of Mr. Disraeli, it is affirmed that "Lothair" might never have been written but for the illness of Mrs. Disraeli, now Viscountess Benconsfield. She was making though then pressed with the cares of the Exchequer, contrived to find time to write a chapter of the novel every day, which, being written out in his library in the morning, was carried up to the sick chamber and amused the tedious hours of the invalid in the even ing.

ADDRESS OF THE NATIONAL REMOVAL OF THESTATE FAIR. We learn that the question of removing the State Fair from Raleigh to Charlotte or some other point in the State, where more interest would be taken in the success and management, is now under consideration by the Ex-

> that such a proposition has been made, and will be discussed at the meeting of the Committee during the week. Of course Raleigh is the most appropriate place for the State Fair, but we learn that loud complaints are made against our merchants and citizens of Raleigh and Wake generally, for the want of interest they have manifested in

the present exhibition. Col. George A. Gordon, who commanded the 63rd Georgia regiment in the late war, recently died at Huntsville,

Especial attention given to consignments

Business is very brisk in Newbern. ROCKINGHAM, Richmond county, 18 improving rapidly.

A NEW rectory has been built for the Episcopal minister a Elizabeth City.

A LARGE hotel is being completed in Elizabeth City. It will be capable of accommodating two hundred people. THE Aurora Boreslis as seen at Char-

lotte a few nights ago was beautiful and VIRGIL LEE, a colored man died sud-

denly in Newbern whilst standing on TWELVE hundred and twenty five

bales of cotton were sold in Charlotte last week.

REV. J. T. HARRIS, of Magnolia, 10cently preached an eloquent sermon at Wilmington. A GIRL, by smoking a pipe, caused

John Morrow of Rutherford to lose 50 bushels corn. Four fights occurred in the course of ten minutes at the market house in New-

bern a few mornings ago. FEARS are entertained that owing to the scarcity of hands much of the cot ton crop in Jones county will not be

HARRY CHURCHILL has been acquitted of murder for killing a little boy named Lewis. The case was moved from Rutherford to Cleaveland.

Mag Wilson, a woman of notoriety of Rutherfordton, call the Marshal "old pewter buttons." She was fined by the Mayor for the offence.

DR. W. T. Ennett, at Rocky Point, got into a difficulty with a negro man named Batts, which resulted in the shooting of the latter in the face. Batts provoked the difficulty. Dr. Satchwell dressed the wound.

HALIFAX is going ahead. A cotton factory is be built near the town, and the preparatory work has already begun. Hands are at work upon the dam at Owen's Mill, an I several houses are in course of erection.

A CORRESPONDENT from Elizabeth City says that the crop of cotton has been larger this season than has ever been raised in Pasquotank county. Prices range from four to four and a half cents, and the staple is in demand.

THE Statesville Intelligencer says : Mr. M. M. Mayes called at our office this morning and exhibited a specimen of Wool cotton, a new species of growth in this section. The fibre has the appearance and feel of the finest lamb's wool. This, we believe, is altogether a new article, and is destined to prove of immense advantage.

THE next Synod of North Carolina will meet at Wilmington next year. New Orleans Picayune says : Forty members of the Masonic Lodge of Wilmington attended the funeral of the late Col. J. A. Rowland, at Lumberton, on last Sunday. Rev. Archibald Mc-Queen preached the sermon, and Col. Robert Strange, of Wilmington, pronounced an oration which is pronounced by the Journal to have been eloquent and impressive.

THE explosion of the engine Colfax, of which an account was given yesterday, was a sad affair. Both of the gen tlemen killed, Capt. Arendell and Mr. Alpheus Faison, left families. The cause of the explosion is not known. Just before the boiler bursted, as the mail train passed at Dover Station, the mail train passed at Dover Station, the leans with a population equal to one-unfortunate victims were eating their third of the inhabitants of the State, breakfast sitting on the engine. It is consumes an almost fabulous quantity said Bonner, the fireman, will die from of whiskey and other strong drinks, for the injuries received.

THE Raleigh News contains an urgent appeal from "Many Democrats" for assistance in re-establishing the Sentinel, recently destroyed through the base fanaticism of its personal enemies, upon a sure and firm foundation. The Sentinel has been a faithful guardian upon the watch-tower of Liberty, and every Democrat and Conservative to more than \$30,000,000 yearly. in the State of North Carolina should take a pride in contributing what he may be able towards its re-establishment. We are assured that this appeal is not made at the instance of the victim of the unparalleled outrage which has sent such a thrill of horror and indignation throughout our borders, but is intended to call forth a spontaneous free-will offering from our people to re-establish freedom of thought, the liberty of speech and of the press !-Wilmington Star.

A GORRESPONDENT of the New York Tribune, writing from Wilmington, under date of September 22d, gives an interesting statement in reference to rice culture on the Cape Fear before the war. Thirty years ago, says the correspondent, the rice fields of the Cape Fear river produced a crop of 200,000 bushels, the most of which was shipped to Northern cities, where it was cleaned and prepared for market. Fifteen years later, just before the breaking out of the war, the yield of the same region had increased to 500,000 bushels, and at that time there were several mills in Wilmington, in which the rice was cleaned before it was sent coastwise to New York, or Baltimore, or shipped to foreign ports. In 1971, rice was planted on only one or two farms, and the entire crop was only 10,000 bushelsless than the amount consumed in the State-and this year three planters only have ventured to put in a crop of rice; and although the yield to the acre will be the greatest remembered by the oldest rice planter around Wilmington, the crop will not exceed 40,000 or 50,000 bushels.

PRINCE NAPOLEON ORDERED TO QUIT —Paris, October 11.—Prince Napoleon and Princess Clothilde, who are in this ity have received notice to leave France. The Prince replied to the agent of the Government who broght the summons by refusing to quit his native land, eisting on his rights as a citizen, and eclaring he would only yield to torce, nd the Princess answered that she rouid only leave France between two

Later .- Prince Napoleon has yielded the peremptory orders of the Governent, and left Paris,

The Troy Press announces that there are 500 Republicans in Rensselaer county who are out for Greeley and Horrible Experiments-The Dead Body of a Condemned Murderer Subjected to the Action of Electri-

Barclay, the young man who was banged at Columbus, Ohio, on Friday last for a most brutal murder, consented that the students of a medical college in that city could have his body for experimental purposes, and ten minutes after it was cut down it was placed in a wagon and driven rapidly to the college, where a powerful battery had been placed in position for the purpose of trying the effect of electricity as a medium to restore life. At twenty four minutes past one o'clock six students carried the body into the anatomical lecturing room of the college, where were assembled the students, and all the prominent medical gentlemen of the city. It was then taken from the coffin and placed upon the operating table.-The pupils of the eyes were found to be dilated and the face discolored. The body was stripped of its clothing, and at thirteen minutes to one o'clock, thirty seven minutes after death, the students began operations. The electrical instrument used was one of the most powerful known, consisting of six cups of Bunsen's battery attached to Ritch's induction coil of the largest size. It was operated by Professor Mendenhall, an eminent electrician, while Professor Wormly and Professor Holderman and

Denig conducted the experiment. Two currents of electricity were used, one placed at the lower extremity of the body, and the other drawn along the arm, neck face, and breast. The effect was wonderful: the eyes opened, the face drew up as if in pain, the mouth jerked to one side, the arm raised as if to strike, and the fist clenched. The limbs also raised, and the toes and fingers worked, and once the body almost turned to one side. The arms were next laid bare and a current of electricity introduced. The whole system seemed to respond, and the movements of the body were at times violent. At four minutes to 2 o'clock the electricity was removed, and faint actions of the muscles could even then be observed. The boda was afterwards left till ten minutes after 3' o'clock, when electricity was again applied and the muscles of the body still responded as before, but with less force. The breast was then opened and a current passed into the heart, but it gave no response. It was carried to the bands and feet, and all responded as before. The heart was then taken out, and found hard as muscle and full of blood, the lungs not congested, the brain very healthy, free from any congestion whatever. At 11 minutes after 4 o'clock electricity was again applied, and a good response was had; at 18 minutes after 5 a faint response was given, and at 15 minutes to 6, 5 hours and 35 minutes after death, the strongest current that could be applied, failed to move a muscle. The experiment exhibition was then brought to a close, the crowd dispersed, and the mutilated body of John Barclay was replaced in its coffin, delivered to the coroner, and given its final burial.

CONSUMPTION OF WHISKEY.—The

State, with a population of about 43, 000 of all ages, colors and sexes, in which meet the yearly demand. It has been estimated, upon a fair basis of calculation, that the consumers in these four parishes pay half a million dollars yearly for liquor and strong drinks-about three times the amount of their State and parish taxes. The colored population all over the State, not only the men, but the women drink enormous quanti-

ties of whiskey. Most of the stores in all of the villages and country parishes take out licenses to sell whiskey. The city of New Orwhich they usually pay fifteen cents a glass, and great quantities of lager beer and milder beverages, for which they

pay from ten down to five cents a glass. The gross sales of the cotton and sugar crops of the State since the war usually do not amount to over \$30,000, 000 yearly. The "drinks" of the people of the State, and the liquor bills, amount

FORNEY TO BE EXCOMMUNICATED, -- The Washington correspondent of the New York Tribune, writing on Friday, says: Senator Cameron arrived here last night, and has been engaged during the day in efforts to injure Colonel Forney, whose scalp, he says, he is determined to have. The Senator had an interview with the President to-day, and represented in effect that he had done every thing in the late Pennsylvania contest and had shown his strength in the State, while Forney had only shown his weakness. Cameron wanted the Administration to no longer recognize the editor of the Press, but to help him (Cameron) to drive Forney out of the party, as Sumner, Schurz, Trumbull, and Fenton had been driven out. The Senator was listened to attentively, but the President

was reticent. Good mottoes for the campaign: Reconciliation and Purification; One Term for the Presidency; Complete Amnesty and Suffrage; The Right of Local Governments; No War Between the Races; As Much Freedom for the White Man as for the Black; Equal States and Equal Rights.

thus insuring larger Dividends to Policy Holders.

5th. The Directors and Officers of the Company are prominent NORTH CAROLINIANS, who are KNOWN to be men of INTEGRITY and WORTH.

6th. The Company is established on a solid and permanent basis, steps having been taken to increase the Capital Stock to \$500,000.

7th. ALL THE FUNDS OF THE COMPANY AME INVESTED IN THIS STATE AND CIRCULATED AMONG OUR OWN PEOPLE. This fact should commend the Company, above all others, to North Carolinians. It is well known that hundreds of tuousands of Dollars in Life Premenms are annually sent North to enrich Northern Capitalists, thus continually draining our people of immense amounts which should be kept at home. On this ground the friends of this Company confidently appeal to every son of the Old North State, and ask their support for this Home Institution, which, while it offers substantially all the advantages of Northern Companies, helps to build up Home Patersyns.

This Gigantic Enterprise, which has been This Gigantic Enterprise, which make a a vast expenditure of time and money thoroughly re-organized and equipped for the present traveling season, presents the Startling, Novel, Unique and Collossa Spectacle never before witnessed in the annals of amusement enterprise either is the or any other age, of

TWELVE SUPERIOR SHOWS IN ONE. All for a Single Price of Admission. In the collection and organization of the Museum the utmost care has been taken to gratify and enlighten the public by presenting in One Vast Assemblage an accumulation such as has never been attempted or dreamed of by the combined tact, talent and liberality of all other managers in America or Europe. It may be interesting for the public to understand that for nearly Two Years Mr. Robinson's numerous Agents, who are found in almost every part of the world, have been actively employed in procuring Curiosities for his Great Traveling Show. Some of these were put on In the collection and organization of th eling Show. Some of these were put of exhibition for the first time last year; but exhibition for the first time last year; but they have been largely supplemented for the present season by new accessions and consignments brought by almost every steamer from foreign Ports which has ar-rived in NewYork for the past eight months. As an illustration of the Indomitable En-ergy of the well known Proprietor of this establishment, it may be well to remark that the Exhaustless Resources of Europe, Asia, Africa and America, with the subdi-visions of China, Japan, Australia, the Asia, Africa and America, with the subdivisions of China, Japan, Australia, the Polar Regions, South Sea Islands, Arabia, Turkey, Siam, Circassia. Egypt, the Pacific, Arctic, Indian and Atlantic Oceans, together with the Red Sea and Holy Land, have all been levied into, contributing to swell the aggregate of this single Department, which, after all, constitutes but a molety of all that may be seen.

It is estimated that in the Aquarium, Museum, Menagerie and Caravan there are

Twenty-Thousand Curiosities. Twenty-Thousand Curiosities.

This Stupendous Combination has been brought together at an actual cost to the Proprietor of more than a million of dollars; which is ten times more than was ever invested in a single Show. The curiosities of the several departments represents the choicest excerpts from the realms of Zoology, Ornithology, Geology, Ichthyology, Conchology, Entomology, Anthropology, Mechanics, Numismatics, Science, Statuary, Oil Arts, and so classified for this Great Exhibition as to challenge the admiration not only of naturalists, but of poets. statesmen, philosophers and divines.

HOTELS.

RALEIGH, N. C.

If traveling by wagon would require the actual service of nearly two thousand men and horses, it is futhermore confidently believed by those most competent to judge, while the management are very emphatic in the statement that, taken in the aggregate, J. Robinson's World's Fair has more real and solid attraction, merit and value, with a greater variety of of marvelous features than is generally contained in twenty ordinary shows. Situated on the Principal Street, in the Centre of the City, Convenient to all the Public Buildings, Banks, Business Houses, &c. ordinary shows.

In order that the public may be able to form an approximating conception of the magnitude of this concern, we volunteer the statement that—which will be qualified at any time—the daily expenses attending John Robinson's Exhibition are three times more than the gross reseluts of any

NORTH CAROLINA HAMS

John Robinson's Exhibition are three times more than the gross receipts of any of the self-styled first-class shows in America. It is, therefore, with no ordinary degree of confidence that the management announce that these Twelve Great Shows for only one price of admission are positively the largest ever seen on earth.

We respectively solicit the attention of the reader to the following enumeration of only the leading features of the Great Exhibition, as we have not the space to mention the Multitudinous Curiosities with which the entire Exposition so amazingly abounds: The Monster Sea Lilons, from Alaska, nine in number, the largest weighing two thousand pounds, consume five hundred pounds of fish daily; the Egyptian Crocodile, twenty feet long; a Texas Steer with three horns and eyes; an Educated Hog, that can read and Talk; the largest Elephant in the world—actual weight five lons; a drove of Camels Buffaloes, Bisons.
